London, ON

Hello Wayne,

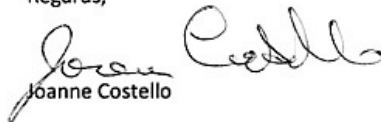

We are now in the process of getting your family's items transferred to their appropriate Archives. We have the items bound for Alabama confirmed and will soon be shipping these off.

I have enclosed a list of items for York University for your confirmation. I may have sent you this before.

I also have the propagation records to be sent to the Woodstock Museum that you noted ready for shipment.

Hopefully this will conclude the transfers of items.

Regards,

Joanne Costello
